## CONFORMATION JUDGE

### MIRANDA BRACE

Braehead IW, Cranleigh Surrey, England

My husband Bernard and I bought our first Wolf-hound from the Sanctuary kennel of Margaret Harrison and May Atfield in 1968. Our foundation bitch joined us from the Brabyns kennel of Sue Hudson in 1970 and we registered our kennel name, Braehead, a few months later. All Braehead hounds go back to these two in one way or another.

I started judging in the late 70s and was passed to award CCs in the breed in 1986 and have done so many times since, including Crufts in 1998. I have judged the breed at Championship level in Europe and the States and have judged many other breeds at Open Show level, also Group and BIS. I also judge Otterhounds.

Member of the (UK) KC since 1993

Life member and past committee member of the Irish Wolfhound Club (UK)

Founder member and current committee member of the Irish Wolfhound Society (UK)

Founder member of the Irish Wolfhound Health Group and still serving .

Past committee member of the Otterhound Club (UK)

I write the Breed Notes for Our Dogs weekly paper and have done since 1982 and have written many articles for them and other breed publications. I have given talks on the history of the breed and its relevance to the Standard.

## Judges' Comments

A big thank you to the BC Branch for honouring me with this appointment. I was royally looked after and entertained and thoroughly enjoyed my stay in Canada.

First of all, a few observations - I have not mentioned bites in my critique as they were all correct, so a blanket "good bite" can be taken for all. Secondly, I was surprised to find two bitches in season being shown. This is generally frowned on in the UK as a bitch in season will be feeling very vulnerable and will not show to her best advantage. More seriously, males can be badly affected and will certainly behave erratically and may lose a place because of this. However far away you keep the bitch from other exhibits before entering the ring, Wolfhounds have a very keen sense of smell and delicious wafts will reach them, wherever they are on the show ground. To spoil another exhibitor's chances, however unintentionally, is just not on. Lastly, I was horrified to find a bitch six weeks in whelp being exhibited. Leaving aside the fact that she could not be shown - and therefore judged - to her full potential, the health implications for both the bitch and her litter are serious.

— Miranda Brace

**Thanks for coming!**

Looking forward to next year, so I am going to rest up for 2020!

## SWEEPS & JUNIOR HANDLING JUDGE MELANIE MERCER

Wyvern Irish Wolfhounds, USA

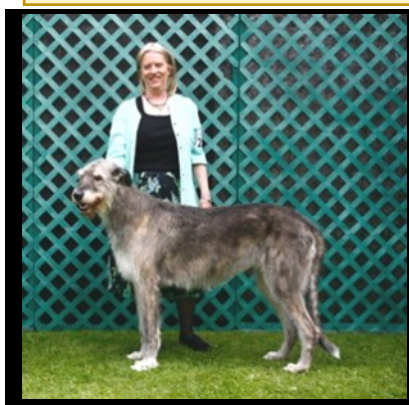

I'm originally from St Louis, MO, though I currently live outside Dallas, TX. I am a practicing veterinarian, graduating from the University of Missouri in 1989, the same year I got my first wolfhound. I became certified in canine rehabilitation therapy about 9 years ago. I've

participated in AKC conformation events, lure coursing, LGRA and NOTRA racing, and open field coursing. I've bred 3 litters of wolfhounds and 4 litters of salukis under the prefix Wyvern. I was very involved in the infamous Houston rescue of 75 IWs and have been on the Board of Directors of the IWCA for several years. Most currently, I'm the show chairman for the 2019 IWCA National Specialty Show in Santa Fe, NM. Thank you for the opportunity to share time with you.

*Large, upstanding handsome dog completely unsettled on the day. He fought his handler all the way round, flying his tail. His behaviour cost him first place as it was impossible to assess his movement. (This probably due to the bitches in season as I was assured afterwards that he never usually behaves like that. My first thought on seeing him was that there must be a bitch in season as his behaviour was so typical of a young dog overtaken by lust! This was before I knew definitely, there were bitches in season present). Good depth of chest and well balanced body.**Correct bend of stifle. A promising young dog.*

Owners: John &amp; Paulina Govaert

*This puppy was determined to be uncooperative, but her lovely overall shape and clean, easy movement won me over. I am a little concerned that she will not have enough size when fully grown, but that day, she was well proportioned and was my **Best in Puppy Sweeps**, beating out the 1<sup>st</sup> place 12 – 15 month puppy dog.*

*She has good size and substance but did not have quite the overall balance of the younger bitch puppy. She has good bend of stifle, but her feet are somewhat small, and she could use more muscle in the second thigh.*

By: Berrybriar Tribute to the Past of Cnoccarne ex Cnoccarne Amaragh, Canada

Breeders/Owners: Katy Albrecht, Jerry Holmes & Emma Ross

*She has very good width across the chest and her forelegs sit well underneath her, but I would have liked to see a stronger loin.*

## **SWEEPSTAKES: JUVENILE 15-18 MONTHS FEMALE (1 ENT)**

### **1<sup>st</sup> LEGACY'S SALISH DIAMONBACK**

By: Salish Legacy's the Iceman ex Legacy's Giselle, Elsewhere

Breeders: Belle McCluskey, & Lisa Blanchard

Owners: Belle & Dan McCluskey, & Lisa Blanchard

*This young bitch has plenty of leg and width across the chest, but needed to have more spring of rib, which I expect will improve some as she ages.*
