## CONFORMATION JUDGE

### REBECCA PEEK

*Milkwood IW, England*

I was born into a family of dog lovers; my mother began breeding Miniature Long Haired Dachshunds in the early 1960s. When I was six I was allowed to choose my very own dog, so I asked for an Irish Wolfhound. Predictably, the

answer was 'no' and I was told to choose something smaller, so I chose an Afghan Hound and there began a long association these most beautiful, but very high maintenance creatures. We bred the Afghans and Dachshunds for many years under the family affix Yansukhim, which one of my sisters still retains. Although we are no longer breeding either we still own them.

I never lost my longing for an Irish Wolfhound and in 1979 I eventually became the owner of my first and foundation bitch, who went on to become Ch Finloren Hester of Yansukhim, (Ch Erindale Triston x Sanctuary Sweet Erin), who was a general championship BIS winner. It was the beginning of a very long love affair with the breed and one that continues today.

When I bred from Hester I established my own kennel name Milkwood, and although I've been in the breed for nearly 40 years, do not breed very often and have never owned a large number at any one time – they are primarily companion animals and live in the house with me as one pack. So I feel very proud that from a very small number of dogs, so far I have bred and produced three further champions, Ch Milkwood Miss Pegotty O'Yansukhim, Ch Milkwood's Matti Richards and Ch Milkwood's Me Myself I, plus many other Reserve CC and award winning dogs. I have also owned and successfully shown Petit Bassets Griffon Vendeen.

Over the years I have had to balance my passion for the breed with work, which has always restricted my ability to breed and show more often.

I am passionate about health and longevity in the breed and also the need to nurture and bring on the next generation of wolfhound owners/breeders that will be the future guardians of the breed.

I am currently Chairman of the Irish Wolfhound Health Group, having been a former Treasurer and Secretary and founder member; I am also the breed's Kennel Club Breed

Health coordinator and have served on the Committee for the Irish Wolfhound Society and several General Dog Show Societies – I am also Secretary for a Ploughing Society in my spare time!

In the UK, I am approved to judge both Irish Wolfhounds and Petit Bassets Griffon Vendeen at Challenge Certificate level and have judged Irish Wolfhounds in Scandinavia and Europe. I also enjoy handling show dogs and have also handled for others in the UK and Europe.

I am honoured to have been invited to judge at your show and look forward to meeting you all and your hounds – it will be my first visit to Canada so I am very excited!

#### Judges' Comments

I'd like to thank the IWCC, BC Branch for inviting me to judge your specialty, it was an honour and a huge pleasure. I have to say that the officers and committee do a great job in looking after we judges – the hospitality is second to none, and the whole weekend had a relaxed and friendly atmosphere, a great introduction to Canada for me!

A big thank you, also, to show photographer Carol Petersen for downloading the pictures so quickly for me, I can see why the show was dedicated to you – lovely shots and a wonderful record of the day that has given me a really pleasurable few hours looking through with the catalogue. Thanks also to my Ring Steward, Lesley Schreuder, who guided me through the programme for the day and kept me and the ring on track – along with a very efficient support team sorting out the many wonderful awards!

It's always a privilege to be allowed to judge other people's hounds and always a joy to go over the dogs, especially when they are completely unknown to you. So thank you to everyone who brought their dogs under me, I was delighted with the quality of the entry.

There was a lot of consistency throughout, which when I looked at the catalogue and saw how related many of them are, is hardly surprising. Overall, the hounds were sound on the move, with good temperaments and there were many of good size and type with the overall shape and leg length needed for a galloping sighthound. Ideally, I am looking for an athletic and capable sighthound that is fit for function, powerful and workman like without being overdone or coarse and there were several that fitted the bill. I was pleased to see plenty of lovely sighthound heads with neat, well placed ears, good skull proportions and good eye shape and set - and there were plenty of good bites with large, strong, clean teeth set in strong jaws. If I have a general criticism, it is that there were a lot of light eyes and in an ideal world I would always prefer to see a dark eye, regardless of the colour of the dog. However, it is only one fault and does not stop an otherwise good hound fulfilling its function – for me, it's a nicety, not an absolute necessity.

— Rebecca Peek, Milkwood

**SWEEPSTAKES JUDGE****ANDREA DORMADY***O'lugh Irish Wolfhounds, USA*

It all started for me in 1970 when my parents bought their first wolfhound "Roa" from Sam Ewing, he was a combination of Ambleside, Sulamstead, and Riverlawn. In 1971 my parents went back to Sam for a foundation bitch (Cloneen of Eagle). When I was 5 years old my parents wanted the 3 kids to have their own dogs to show, a whippet for my brother, a fox terrier for my sister, and a mini wire for myself. I

grew up showing in the breed ring and junior showmanship which I qualified for Westminster 8 years in a row. My favorite memories growing up was time spent in the whelping box and arguing with my father over which puppy to keep

and why. My parents lost their last wolfhound in 1989 which ended an era for me. I did quite a bit of handling for people with wolfhounds, whippets, goldens, and basenji's. All the time looking for where I was going to get my next wolfhound. While at a local dog show I saw a beautiful male wolfhound "Demage Loup Garou". I contacted Danielle Renaud and bought a male puppy "Demage Keeley of O'lugh" in 1991. At this time, my soon to be husband would fight for bed space and the rest would be history. I got the best of both worlds, years of enjoyment out of wolfhounds and a husband that is a true partner in my passion. Over the years my husband and I have had 25+ litters and 33+ champions that I can recall. I have traveled to various shows abroad including the world show a few years ago. I love my hounds very much, however as a breeder I am always striving to improve the breed for everybody to enjoy happy, healthy, long lived kind souls.

It is a huge honor to be entrusted in going over your hounds, and hope to make it an enjoyable experience for them all.

## BEST OF BREED WINNER'S FEMALE / BEST OF WINNERS AUGUST CALYPSO

**Ballyphelan Othello ex August Maya, Elsewhere**

Female, Listed, 26/11/2013

Breeders/Owners: Jim & Ellen Kroll

*She really filled my eye as soon as she entered the ring and is so much what I am looking for; a beautiful, mature bitch in her prime, lovely head and expression, of lovely size, type, shape and proportions; she was beautifully presented and handled, shown in top condition and moved on a light, easy gait with good reach and drive - a very well deserved win. There is nothing flashy or exaggerated about her, an honest, workmanlike bitch yet full of the grace and elegance I like to see in a sighthound.*

# BEST OF OPPOSITE SEX OPEN MALE WINNERS MALE JACKSON ROAN INISH

**Absolute Icon Roan Inish ex Happy Harmony Roan Inish, Elsewhere**

Male, Listed, 06/10/2013

Breeder: Petra Tomasovicova

Owner: Lisa Blanchard

*An impressive, well put together stallion dog of great size and commanding appearance; he has much to recommend him, well-constructed all through with great bone, substance, depth and width, plenty of angulation all through, he moved out well in profile with extension fore and aft, but in the challenge for BOB was rather unenthusiastic, without the drive and energy I was looking for and I felt he wasn't fulfilling his potential on the move, but a worthy BOS and is lovely for type.*

## BEST BRED BY EXHIBITOR BRED BY EXHIBITOR / RESERVE WINNERS MALE SALISH LEGACY'S THE ICEMAN

Male, Listed, 26/09/2014  
Breeders: Belle & Dan

Blanchard  
by: US GCh. Citadels the  
Pathfinder ex US Ch. Legacys  
Tyra at Salish, Elsewhere  
Owners: Lisa Blanchard &  
Belle McCluskey

*Very pleasing, quality red wheaten male of 3.5 years just coming into his prime with much to recommend him. Well-built all through, well presented and handled and in good condition. Although lighter in frame than the Winners Dog he is still a substantial and well put together hound and it was a close call between the two as he is very light*

*and easy on the move and covers the ground well. In his class although moving well, he appeared not to be reaching his full stride length, but as the day progressed he was moving out really well and looked like he could have kept going all day.*

## RESERVE WINNERS BITCH JADIS ZSA ZSA GABOR

*A larger, more powerful looking bitch with a long, powerful stride, eating up the ground, lovely overall shape and balance, good depth and width all through and good angulation fore and aft, she was unlucky to meet the Winners Bitch today. Handled well and presented in fit condition.*

## BEST CANADIAN BRED JUVENILE 12-15 MONTHS CNOCCARNE AMHRAGH

**Berrybriar Tribute to the Past of Cnoccarne ex Cnoccarne Teileannagh, Canada**

Female, EG724447, 06/04/2017

Breeder: Emma Ross

Owners: Emma Ross, Kathy Albrecht & Jerry Holmes

*Winning the Juvenile 12-15 Months Females Class at 13 months she is still very immature with a long way to go, but she has so much to recommend her. She is a boundy and rangy, well grown wheaten brindle bitch of lovely type. Very shapey, well angulated all through with good bone length and proportions with depth and width already. Sweet head and expression, good neat ears and lovely furnishings. Well-muscled all through, she moved out well and soundly, covering the ground with ease. I found myself drawn to her whenever she entered the ring and considered her in the challenge for Res Winners Bitch, but she is just too young at the moment, but I will watch her progress with interest – one I could have taken home with me!*

*All three Veterans were from the same litter  
and all in excellent condition and on good  
form. Very little to choose between them,  
especially the two sisters, all good for size  
and type, but this girl just had the edge and  
has lovely length of bone and overall propor-  
tions, standing over a little more ground,  
and covering the ground well on the move.*

*Pretty 8 month puppy bitch, winner of an overall strong puppy entry. Feminine with a lovely head and expression, good reach of neck, good overall shape and outline and curve hindquarters, moving out on a light and easy gait, settling into her stride more as the day went on – lovely for type and at the moment more balanced in her frame*

Not overdone in any way, he is honest and well-constructed and in excellent condition. Lovely head and expression, good neat ears and good reach on neck into well-constructed forehand. He is good for size and shape and has a good topline and tail set. Good depth and width all through with good angulation fore and aft, he*

Owners: Kathy Albrecht, Jerry Holmes, Emma Ross & Tina & Mark Berry

*Very promising 7 month red brindle male of nice size and type and overall shape, good length of bone and overall ratios. Very raw at the moment, needs to grow into his topline, but that will come with time, difficult to assess his movement coming and going as he was pulling away and crabbing, but he settled into his profile stride and has a good scopey*

*stride. By the end of the day, in the Brace class, he had really settled and gave a great performance with his sister and handler – a peek of what's to come in the future.*

Good depth and width all through, good forehand and curry rear with plenty of width through the stifle, moving out well with a light and easy gait. Very raw as you would expect for 13 months, with a lot of growing into his frame yet to do, especially his topline. ## JUNIOR (6-9 MTH) FEMALE (5 ENT)

She has a lot of bone to grow into and is currently looking less balanced when stacked, but moved out well and was thoroughly enjoying herself. As with her litter brother, in the Brace class she had settled into her stride and covered the ground effortlessly.*

She is in excellent condition and is an honest and workmanlike hound, who feels like she can do the job. *A larger, more powerful looking bitch with a long, powerful stride, eating up the ground, lovely overall shape and balance, good depth and width all through and good angulation fore and aft, she was unlucky to meet the Winners Bitch today. Handled well and presented in fit condition.*

*All three Veterans were from the same litter and all in excellent condition and on good form. Very little to choose between them, especially the two sisters, all good for size and type, but this girl just had the edge and has lovely length of bone and overall proportions, standing over a little more ground, and covering the ground well on the move.*

*I particularly liked this well put together 5 year old grey brindle, he is mature and balanced and is lovely for type. Not overdone in any way, he is honest and well-constructed and in excellent condition. Lovely head and expression, good neat ears and good reach on neck into well-constructed forehand. He is good for size and shape and has a good topline and tail set. Good depth and width all through with good angulation fore and aft, he moved out on a light and easy gait.*

*Another well-constructed and impressive male, bigger all through and standing over a lot of ground, with great depth and width. A very strong dog in excellent condition, well-muscled all through and moving out well. Two very different bounds, both with much to recommend them and my final decision was based on type – I preferred the topline and overall size and shape of my winner.*

In complete synchronicity, they flew round the ring in harmony and even though it was getting towards the end of the afternoon, it was worth sending them all round again just to see them in action.*

*Another nice boy. Not as substantial as my first place. Not quite as much fill in the fore chest as the first puppy and does not have the quite width of stifle of the first but quite a nice boy. This boy was slightly less conditioned than the first place and had less drive in rear on the move to match the front. Sound coming and going. This was a close class.*

*Another very nice bitch that gave my first place a run for her money. She is much more substantial than the first bitch. She is not as angled right now front or rear but very balanced with good head and topline. Sound coming and going and covers ground easily on the go around, just not quite as much as my first place puppy.*

*Red brindle girl. She has all the right pieces but I wasn't able to see much of her. Beautiful head piece and topline. Covers the ground easily when she is cooperating with her handler. Tried to get her to move a bit faster. Really felt she was not going fast enough to use herself properly. Sound coming and going Once again a nice bitch with good width of stifle and with her behaving a bit better so I could see her, may have been higher in the placements.*

### 4<sup>th</sup> CNOCCARNE CRAN NA BEATHAGH

Breeder: Emma Ross & Tina & Mark Berry

by: Berrybriar Tribute to the Past of Cnoccarne ex Cnoccarne Caraglen Finneagh of Cnoccarne, Canada

Owners: Patricia Vetter, Marshall Brown & Emma Ross

*Light brindle girl. Looks like she has just gone through a bit of a growth spurt, and like the 3<sup>rd</sup> puppy she was being a puppy and not wanting to stand still. She nonetheless is put together quite well. Not quite the same front assembly as the others but good length of upper arm and when she settled into the go around she covered a good amount of ground. Topline was not as good on the move but do feel this was in large part to her being a puppy in the ring. She was very sound coming and going. Once again, a puppy I felt that was not moving fast enough to really see what she can do on the go around. Best coat in the class.*

*At 13 months she is still very immature with a long way to go, but she has so much to recommend her. She is a boundy and rangy, well grown wheaten brindle bitch of lovely type. Very shapely, well angulated all through with good bone length and proportions with depth and width already. Sweet head and expression, good neat ears and lovely furnishings. Well-muscled all through, she moved out well and*

*soundly, covering the ground with ease. I found myself drawn to her whenever she entered the ring and considered her in the challenge for Res Winners Bitch, but she is just too young at the moment, but I will watch her progress with interest — one I could have taken home with me!*

*I liked this 16 month grey brindle bitch, she is lovely for type and has a lot of promise yet to fulfil. Being tall and rangy, she is currently going through that teenager stage where she has shot up on the leg and is looking very raw and colt-like and a bit bum high. However, her overall shape, and balance is good and although she will take time to finish growing and settling into her frame she is still presenting a good overall picture. She relaxed more as the class went on and settled into her stride and moved out soundly.*
