SPECIALTY JUDGE

PERNILLE MONBERG

WOLFHOUSE IRISH WOLFHOUNDS

FCI International judge, Fredensborg, Denmark

Pernille Monberg is a native of Denmark, where she holds a degree in anthropology from the University of Copenhagen.

It all started out with horses for about 30 years – but today the dogs are a pivotal point in her life: In 1976 her parents bought two Irish wolfhound puppies. They were primarily meant to be her mother's dogs; however with her mother's unexpected passing just 3 months after bringing the puppies home, Pernille was given the responsibility of caring for the dogs. A deep mutual bond had developed between her and the dogs, so when she moved to a house of her own the following year, - so did the Wolfhounds.

Wolfhounds are addictive; now 40 years on she is still working with the breed, this has resulted in more than 200 Wolfhounds from 29 litters born under the Wolfhouse prefix. The show ring accomplishments count more than 100 championship titles; national - as well as international, a junior World Winner Multi CH Wolfhouse Pergolesi, a World Winner, CH Wolfhouse Knock Out, and a veteran World Winner CH Wolfhouse Pavane.

Today Wolfhouse Irish Wolfhounds and their descendants are found all over Europe, Russia, Africa, Australia, Canada and the US.

Schooled in the behavioural sciences has sparked Pernille's fascination for the social lives of dogs; how they interact and function as a pack. She has published numerous articles on breeding, health and the social life of dogs in books and magazines Worldwide.

She has judged in Denmark, Sweden, Finland, Germany, United Kingdom, America, Russia, the Czech Republic and Ireland.

Currently she is working on a health/longevity project, involving data on more than 6000 Irish wolfhounds and a population of dingoes living in captivity.

DREAMACRES

IRISH WOLFHOUNDS

Lamont, Alberta

I would like to thank the show committee for inviting me to judge the IWCC National puppy sweepstakes. It is a great honour and I am very excited for the opportunity to go over your puppies.

My husband Cory and I Live on an 80 acre farm in central Alberta. I have owned and loved Irish Wolfhounds for the last 28 years and can't imagine life without them. I bred my first litter in 1992 and the most recent litter are now 1.5 years old. We currently have 8 Wolfhounds, two of which are 9 years old and one is 11. I also breed and show Cairn Terriers.

As breeders and owners we are responsible for the preservation of this magnificent breed and many of the puppies here today will most likely be a part of that future.

I am looking forward to a fun filled weekend with all of you and your hounds.

Judges Comments

I would like to thank all the breeders and owners of these puppies for bringing them out to the show today. It was an absolute pleasure to go over your puppies, even in the pouring rain.

My over all impression is the majority of our breed represented at this show was conformationally sound and correct. As long as breeders & owners keep health and temperament a priority in our breed, the future will be bright.

I would especially like to thank the junior handlers for enduring the weather in order to be involved in showing this very special breed. I wish you all the success in your futures.

Owner: Karen & Marie Straghan

6 mths old, lovely type, head in correct proportions, a little light pigmentation around the eyes, but that can develop with age, lower left canine not clearing the gum line yet ... pls watch it. The canine teeth are still growing, so there is a good possibility that it will eventually clear the gum line. He has a little problem managing his front right now, but he is a baby and should grow out of it, if you watch it carefully. Good proportions, strong topline, good width of thigh, well angulated rear, moves okay, but a bit choppy due to the front.

Just over 9 mths old and he's a lovely type, very well constructed overall, lovely head, lovely dark eyes, long strong neck, well placed shoulder, needs a little confidence in the ring, good bone, tight feet, good depth of chest, good topline & underline, correct length of loin, good width of thigh, well angulated rear, very promising.

Breeder: Susan Prokopenko

by: Ch Kerry's Glenamadda Incarnation ex Ch Glenamadda Independence Day, FCH, Canada

Owners: Karen Jones & Susan Prokopenko

Tall puppy for his age, good proportions, kind eye, but very marked stop, (which takes away from the sight bound outline) correct bite, neatly folded ears, slightly upright in the shoulder, good length of upper arm, good bone, tends to knuckle over a bit, if he doesn't position himself right, good strong topline, slightly long in loin, good length of croup, good width of thigh, well angulated for his age. Movement; a little uncoordinated and immature, tail carriage is high

Breeder: Susan Prokopenko

by: Ch Kerry's Glenamadda Incarnation ex Ch Glenamadda Independence Day, FCH, Canada

Owners: Deborah Hayes & Susan Prokopenko

A 9 month old male, who is quite tall dog for his age, of good proportions, He has a strangely accentuated stop like the previous dog in the class (# 81), not typical for wolfhounds, correct bite, sufficient length of neck, a little upright in shoulder, good length of upper arm, strong topline, little long in loin, good length of croup, good width of thigh and sufficiently angulated for age, today not completely sound due to injury (?) slightly curly tail

12-15 MONTH MALE (2 ENT)**1st SOVNGARDE DIRE WOLF**

1131025, 07/31/2015

Breeder: Mr Jacob Joy

by: Ch Houston From Starstone ex Ch Wulfgar Devynia, Elsewhere

Owners: Julie & Christopher Schaeffer

Very large and substantial juvenile for his age. Correct bite, nice dark eyes, would have preferred a little darker pigmentation, (this may improve with age and/ sunlight. Broad base of skull, which gives coarser, and less sight-boundy appearance, beautifully arched neck, very good forechest, good bone, quite straight in front, tends to knuckle over, if you don't position him carefully, good depth of chest, nice spring of rib, correct length of loin, good croup, good width of thigh, sufficient angulation in the rear, tail a little short with kink at tip, good coat. Movement is powerful from the rear, his bursas might be bothering him, and affecting front action.

**2nd STARKEEPER HADYN HIGHEST HONOR**

CQ624355, 08/20/2015

Breeders: Karen Day & Jocelyne Gagné

by: Ch Starkeepers Storm Stryker ex Ch Glenamadda Echo of Starkeeper, Canada

Owners: Jocelyne Gagné & Serena Ivanovskis

A substantial youngster, 14 months old. Lower left canine does not clear the upper gum line, but judging from the outward angle of the tooth, it looks like it may end up clearing. Masculine head, a little too broad in skull, good length of neck, good forechest, slightly upright shoulder, good length upper arm, sufficient bone, good depth of chest, good underline, strong topline, would have liked a slightly better spring of rib, nice long croup, which gives a good width of thigh. When he moves, he reveals that he is a little unsure of himself, so he looks like he's trying to dash out of the ring, movement is otherwise sound.

15 - 18 MONTH MALE (2 ENT)**1st CUGEIN TRACE OF CHENIFF**

CL612781, 06/03/2015

He is of good proportions, a bit broad in skull, correct bite, neatly folded ears, and sufficient length of neck which is strong and masculine, with a good arch. Well placed shoulder, good length of upper arm, good forechest, good bone with correct angle in pastern, nice tight paws, good depth of chest, good spring of rib, slightly long in loin, correct length of croup, shown in extremely good condition, moves with reach and drive. All in all a very attractive male.

3.5 yr old, substantial male, good size, eye a bit light, yet with kind expression, lower left canine hits gumline, ears are sort of folded, when he wants to. He is little upright in shoulder, has good length of neck, good bone, good length of upper arm, tremendous depth of chest, good spring of rib, strong topline, correct length of loin and croup, well angulated, very powerful rear. He tends to side-wind a bit on the move.

4th WOLFHOLM EVERLASTING HEART

BY588875, 12/04/2014

Breeder: Ewa Boldok

by: Ch Kerry's Glenamadda Incarnation ex Ch Wolfholm Glenamadda Mata Hari, Canada

Owners: Debbie Dennie-O'Hearn & Daniel O'Hearn

A tall male, ca. 22 months old, of very attractive type, correct bite, well arched neck, of good length. His front is his issue: He is upright in shoulder and upper arm and the straight line continues down through the pastern to his feet. So basically there is no shock absorption in the front, except for his nice tight paws. He has a slightly choppy movement because of the front construction. Strong topline, correct length of loin and croup, sufficient angulation in rear, shown in very good condition, needs to stabilize his front in movement but otherwise a very lovely dog.

He has sufficient length of croup, good width of thigh and good muscle, lots to like about this youngster, moves well.

She has an extremely long neck, a bit straight in shoulder, good length of upper arm, good bone, a bit straight in pasterns. I would have liked a more pronounced spring of rib. Good depth of chest, strong topline, slightly long in loin, good length of croup, good width of thigh, nicely muscled, over angulated in rear, but so far she manages, tail is a little ringed, with low carriage, so not offensive, nice drive from behind, needs to stabilize in front.

This time I'll put it down to a lack of routine. She moves well.

CH. GLENAMADDA STARKEEPER WALLIS 02/02/2006

Lizzie has joined several of my heart hounds, firmly establishing herself in first place. At the age of 8 1/2 years she is still very active running with her daughter Freya, meeting other dogs at the leash-free park we go to daily. Lizzie still competes with Freya to get wherever first. She had a very pleasant, if infrequent, show career generally getting into the ribbons at each show. Seeing her super condition and great temperament as she became a veteran, her co-breeder/owner Susan Prokopenko and I decided to show her as a veteran at the Quebec Specialty and at the Ottawa Kennel Club show in November of last year. Lizzie took Best Veteran in Show in both. As well, she repeated the win at this year's Quebec Specialty. She looked and still looks fantastic. Lizzie has been a very healthy bitch, her personality and intelligence are absolutely perfect. She can communicate with me and never fails to let me know what she needs. Both Susan and I hope that she will continue to live for a good number of years. After all, her dam lived to eleven.

Amy goes back to my second Irish Wolfhound Fion (Can. Am.Ch. Killeen's Fion MacCumhail bred by Carole Guifoyle and Jim Todd. Her sire (by frozen semen), Can. Am.Ch. Starkeeper Joncarra Brodie, was a great grandson of Fion. She was a singleton pups So of course she was a keeper. Her mother Zada had a litter before this of 11 and a litter after that of 13, so we feel pretty lucky to have gotten this legacy puppy. She won several puppy awards and finished her championship quite quickly, but really prefers being a homebody. After her two litters she retired to live with good friends Heather and Wayne Gerry, where she acts as a hostess for visiting hounds and hounds sleeping over. Some of her offspring and grand-offspring are entered in the show today, carrying on the legacy from years gone by. Amy is just entering the Veteran ranks as a young seven year old. We cherish and honour all our Veterans, and are proud that she is able to join in the Parade of Veterans.

CH. KERRY'S STARKEPER GLEN O'MALLEY 11/28/2008

Owners: Malcolm & Andrea Duncan

O'Malley is owned by Andrea and Malcolm Duncan from Niagara Falls. He will be 8 years old this November. He was named after our late neighbour, John O'Malley, who was our dog sitter for many years. O'Malley is the son of Jocelyne Gagne's McEnroe and Kerry Kollers Awesome Possum Pinky. Because O'Malley is slightly 'flatulent' at times, his nickname is STINKY MINK SON OF PINKY. Jocelyne says it's because of his love for all kinds of foods...he has an eclectic palates. In his day, O'Malley, along with his brother Thumper loved to run in the LGRA races. He never was particularly fast but he loved to run. O'Malley is a great breed ambassador and he makes quite a few appearances at events both local and across the country. We love this old guy to bits'. He is a true gentle giant.

CH. STARKEEPER CALIFORNIA IERNE 07/27/2007

Owner: Ewa Boldok, Jocelyne Gagné

From the day she arrived as a singleton puppy, California has been convinced that the world should revolve around her. She moved in with me initially at the tender age of six months, to improve her social skills and to drop some habits, such as taking down people bringing her food. The next several months she lived at two households, mine and her breeder's, Jocelyne Gagné. Finally, after the fateful heart test at two years old, Cali came to live with me for good. When I look at our past years together, it is hard to summarize Cali in a few words. Her rally obedience runs were legendary, including Purina Nationals Advanced High in Class. Her energy could power a village; her smile brightens my darkest days. She is a clown and a diva, and happiest at my side. As she races with our pack to the apple trees, I smile and hope for many more years together.

07/04/2008

(on the right) **Owner: Jocelyne Gagné**

Betsy lives with Liz Barningham in Durham Ontario, and here is what Liz had to say about her:

Betsy came to live here in December 2013. She has managed to get me well educated and knows how to get ALL that she wants! In the fall of 2014, I had both hips replaced and during this time Betsy went back to Jocelyne. Many of those present may have heard her(!) as she led the choir at the 2014 Specialty in Belleville! Poor old Betsy was found to be underweight and was taken to the vet. An ultrasound showed that she had a very enlarged spleen, so it was removed. It took the vet both hands to hold the spleen, so large was it! Then within a few weeks, of her spleen being removed, Betsy had a stomach torsion. She is an incredibly strong and stubborn girl, who absolutely refused to die and has made a slow but steady recovery from both debilitating

surgeries.

Not having a spleen did not deter her... she requalified as a therapy dog when she came

back to me and in the fall of 2015 she decided that she no longer wanted to visit! I obeyed her and was glad that I had. I have not been able to drive this year (2016) and I am rather relieved that I don't have to cancel therapy visits. Dear Betsy is so vocal and so delightful... everyone who meets her thinks she is wonderful... and she is! Thank you, Jocelyne for getting her to eat after her major surgery... she now eats with abandon!

Betsy learned from DeeDee and when DeeDee died, Betsy demanded full attention... she has it! I love Betsy and I think she is happy to be here too!

KERRY'S HITECH HOOVER 09/10/2009

(on the left) **Owner: Kerry Koller**

Hoover came to live with us when he was less than a year old. Kerry Koller raise her eyebrows when I said that he was no longer a puppy but he was. I had Special Ed, Hoover's father, until a few months before Hoover joined us. I could not face IW's without a male there, so Hoover, a long body on stilts, joined us, as those who read Mabel's Musings know.

He is always so calm here. He does NOT like to be bothered by other IW's when he is eating, but otherwise is good... he sleeps through fireworks and thunderstorms alike! He spends a lot of time watching squirrels up a tree but so far none have jumped into his mouth. He weighs less than 200 lbs but is HUMUNG- OUS as young Emma used to say. I watched Kerry Koller show him a couple of times including at Milton in 2013 when he spent the 2 minutes having a long, long pee! Judi Orsi was the judge and she was VERY patient with him... he did provide a big laugh though. This is Hoover, a big boy and a loveable one... all IW's who live with us love to be loved!
